I am planning to be at Dimock from 6/26 to 6/28. Also, I can plan to run up there for a day trip to facilitate equipment pickup if that's necessary.

Rich

p.s. boxes delivered to the black trailer this am. :)

Kevin,

When will you be available to come to site to take the rest of the coolers, tables, chairs, and misc. equipment back to the warehouse? I will have it all packaged and ready to go tomorrow but will not be here much in the next few weeks.

Suddha,

Have you looked into having the sample jars returned to ESS? What was the outcome? Returning them to stock would be the best solution for everyone. Also, there are a lot of jars of HCL and other preservatives. What do you intend to do with them? I thought you were going to take them when you were here last week.
